-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Applicant's arguments filed 9/1/04 have been fully considered but they are not persuasive. See argument below.

I. Rejection of claims 1-21 under 35 USC 103(a) as being obvious over Zhang or Yang or Chen is maintained for reason on record and reason as follows. Applicant argues that Zhang, Yang, and Chen teach flat dosing of 10 mg per day of arsenic trioxide (ATO) to a cancer patient without consideration of the patients weight as in instant claims. Applicant argues that instant invention differs from prior art inventions in that instant invention is to the administration of ATO to a patient based on the weight of the patient. Examiner would like to point out that claims are to a kit comprising ATO rather than to a method of administering ATO to a cancer patient. For this reason Examiner does not see reason to address Applicant's arguments with reference to patient dosing. Examiner would like to bring Applicant back to the fact that claims are to a kit comprising ATO. Examiner would like to reiterate that it would have been obvious to place the ATO in some sought of container (kit) and that merely labeling the container with directions does not make a kit claim patentable. It is important to note that in order for a kit to be patentable, the kit's content must be patentable. In this case a kit (or container) comprising ATO, which is an old chemical, is not new and therefore unpatentable.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1616

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
